A logistics professional with deep cross-border freight, dangerous goods, and import/export expertise spanning humanitarian, aerospace, and commercial supply chains. Known for translating complex regulatory requirements into clear, cost-effective transportation solutions, and increasingly focused on applying AI and agent-based systems to modernize logistics operations — from automated freight coordination to intelligent exception handling.

PROFESSIONAL EXPERIENCE

Freight Analyst

Veritiv — Kent, WA Sept 2021 – July 2026

- Develop and execute operational strategies for inbound/outbound freight, warehousing, and distribution, serving as liaison between third-party providers and internal customers.
- Resolve complex freight issues, analyze costs, and support distribution strategy and continuous improvement initiatives.
- Coordinate transportation planning for special projects across departments.
- Optimize freight systems for efficiency and ensure billing compliance with vendor contracts.
- Calculate freight expenses and allocations; support ad hoc reporting and software utilization.

Transportation Analyst III / Dangerous Goods Specialist

Boeing (BCA) — Everett, WA July 2018 – Sept 2021

- Determined UN Number, Proper Shipping Name, Hazard Class, and Packaging Group for dangerous goods shipments.
- Developed DG packaging plans and determined correct marking and labeling.
- Prepared shipping papers and reviewed shipments to verify HazMat regulatory compliance.
- Signed and maintained Dangerous Goods Declarations on behalf of service providers.
- Arranged surface and air transportation, and supported statement-of-work development to secure cost-effective transportation services.

Import / Export Logistics Coordinator

A&A Customs Contract Brokers — Blaine, WA Sept 2011 – May 2018

- Managed freight forwarding operations, preparing all delivery bookings and shipment updates.
- Handled over 100 LCL/FCL shipments per month across ocean, air, rail, and truck modes.
- Ensured full customs clearance and daily shipment status updates for clients.
- Negotiated rates with trucking and air carriers.

Logistics Coordinator

DB Schenker Logistics — Surrey, Canada July 2007 – May 2011

- Booked and tracked all incoming shipments and prepared letter-of-credit documentation.
- Processed invoices for LCL/FCL shipments and ensured conformance with international shipping standards.
- Handled ocean, air, rail, and cross-border truck shipments; negotiated carrier rates and inspected shipments for accuracy.

Freight Forwarder

CEVA Logistics — Richmond, BC Dec 2004 – June 2007

- Calculated weight, volume, and cost for shipments and selected optimal routes based on cargo type and security needs.
- Reserved space on ships, aircraft, trains, and trucks; arranged delivery and storage at destination.
- Arranged special transport for sensitive cargo including livestock, food, and medical supplies.
- Completed shipping documentation — bills of lading, packing lists, dock receipts, certificates of origin — and consolidated loads to reduce shipper costs.

Logistics Coordinator

United Nations — Somalia / Rwanda Aug 1993 – Oct 2004

- Managed daily import/export of vehicles and machinery in a humanitarian operations environment, overseeing departmental administration and strategic shipment planning.
- Prepared customs documentation and resolved shipment issues to ensure on-time completion.
